Index to Volume I—Subjects

Absorption of alcohol with special reference to its influence on the concentration of alcohol appearing in the blood, the, 684
—— of alcohol, the influence of glycocoll upon the,* 388
Alcohol: a study of social ambivalence, 13
Alcoholic beverage control,† 791
—— addiction, personality factors in, 21
—— coma, coramine in,* 398
Alcoholism and hallucinosis,* 785
—— and the heart,* 586
—— and public health 605
—— blood volume studies in acute, 472
—— in the United States, mortality from, 432
——, its frequency, etiology and treatment,* 390
—— : its psychiatric treatment,* 198
—— rural,* 390
—— the high proof of liquor as a factor in the production of, 1
Amphetamine (benzedrine) sulphate in treatment of chronic alcoholism and depression neuroses,* 199
—— —— in alcoholism with and without psychosis, the use of,* 199
Antagonism of strychnine and the combination of alcohol-butyl-ethylmalonylurea in the rat,* 584
Artificial fever, alcohol metabolism in, 483
Attitude towards alcohol, the delinquent's,* 789
Beriberi, occidental, with cardiovascular manifestations,* 586
Bile, the effect of alcohol on volume and constituents in biliary fistula dogs, 645
Blood, alcohol in the motorist's,* 397
—— alcohol determination, errors resulting from removal and shipment of blood samples,* 788
—— —— level in man, the effect of sympathomimetic substances on,* 780
—— the principles governing the concentration of alcohol in and the concentration causing respiratory failure,* 388
—— the concentration of alcohol in causing respiratory failure, the influence of inhalation of oxygen and carbon dioxide and certain drugs on,* 389
—— test controversy, recent contributions to, 772
—— the absorption of alcohol with special reference to its influence on the concentration of alcohol appearing in the, 684
—— volume studies in acute alcoholism, 472
Brain metabolism, the effect of alcohol on,* 198
—— oxidations, the availability of ethyl alcohol for human, 268
—— waves, the effects of alcohol upon the, 626
Carbohydrate metabolism, a study of alcohol and its relationship to,* 782
Cerebellar degeneration, alcoholic,* 782
Cerebral cortex and the hypothalamus of the cat, effects of alcohol on the,* 197
—— tissues of adult and infant rats, the effects of alcohol and pentobarbital on metabolism of excised,* 198
Cirrhosis of the liver, 95
—— —— the liver observations on chronic alcoholism and, 464
—— —— the liver relation between multiple peripheral neuropathy and,* 589
Civil liability, liquor seller's, for damage resulting from the intoxication of his purchaser, 767
Chronaxie, motor, in alcoholic narcosis, alterations in,* 780
Colon, the motor response of to alcohol, 638
Commitment of alcoholics to medical institutions, the, 372
Conditioned reflex therapy of alcoholic addiction: specificity of conditioning against chronic alcoholism,* 786
—— reflex therapy of alcoholic addiction. III. An evaluation of present results in the light of previous experiences with this method, 501
Cortico-hypothalamic functions, stimulant effects of ethyl alcohol in,* 779
Current literature,* 196, 388, 582, 779

*Indicates an abstract.
†Indicates a review.

Deaths from poisoning. Incidence in Massachusetts,* 589
Delirium tremens, 251
—— —— a study of various methods of treatment,* 786
—— —— the role of vitamin B_1 in,* 392
—— —— the treatment of,* 587
Determination of alcohol in blood and urine, a distilling apparatus and a procedure for the,* 787
—— —— —— in body fluids, a simple and accurate method for,* 787
—— —— —— in the breath using magnesium perchlorate, a new method for the,* 786
Diet, the influence of alcohol on the adequacy of the B vitamins in the American, 74
Digestive tract, the influence of alcohol on the, 45
Distribution of ethyl alcohol in the various parts of the central nervous system of the rat, subjected to various concentrations of that anesthetic,* 583
—— of ethyl alcohol in the various parts of the central nervous system of the rat, subjected to the combination of alcohol-butylethylmalonylurea,* 583
Driving skill, the effect of alcohol on,* 787
Drunken drivers, one hundred,* 788
—— —— 145, a blood and urine alcohol study,* 394
Drunkenness as a criminal offense, 751
——, alcohol tolerance, its importance in relation to chemical tests for, *200
Effects of alcohol on the individual: review of the literature for 1939, 110
—— —— ——, analysis of psychological experiments on the, 272
Electrocardiograms of apparently healthy males, a study of 2,400,* 197
Electroencephalogram, effects of alcohol upon, the, 626
Encephalopathy, nicotinic acid deficiency,* 196
Food value of ethyl alcohol, the, 227
——, alcohol as a, 650
Gastric secretion, does alcohol stimulate by liberating histamine?* 196
—— —— stimulated by alcohol, effects of atropine and fat on,* 196
Heart, alcoholism and the,* 586
—— disease, beverage alcohol and,* 586
Hypothalamus of the cat, effects of alcohol on the cerebral cortex and the,* 197
Immanuel Kant on drinking, 777
Increased consumption of alcohol in Germany,* 397
Insulin and the liver in alcohol metabolism, the role of, 663
—— in the treatment of alcoholism, the use of,* 588
—— shock therapy in Korsakoff's psychosis,* 199
Kidney, the effects of alcohol on the normal and pathologic, 85
Korsakoff's psychosis, insulin shock therapy in,* 199
—— syndrome, alcoholic, contributions to the anatomical and clinical study of,* 783
Korsakow's psychosis, on a peculiarity of recognition in three cases of,* 785
Liver, cirrhosis of the, 95
——, observations on chronic alcoholism and, cirrhosis of the, 464
——, relation between multiple peripheral neuropathy and, cirrhosis of the,* 589
——, comparative effects of propylene glycol, other glycols, and alcohol on the,* 196
—— and insulin in alcohol metabolism, the role of, 663
Medicolegal Notes, 372, 563, 767
—— Reviews, 182
Mental deficiency, congenital, alcoholism in a dipsomaniac with,* 588
—— disease, alcoholic, thirty years of, in New York State,* 789
Mental diseases, use and effect of alcohol in relation to alcoholic, before, during and after prohibition,* 199
Metabolism, alcohol, in artificial fever, 483
——, effect of alcohol on brain,* 198
—— of alcohol, the, 201
—— of excised cerebral tissues of adult and infant rats, the effects of alcohol and pentobarbital on,* 198

*Indicates an abstract.

——, the role of insulin and the liver in alcohol, 663
Metabolic rate of alcohol, determination of the,* 582
—— —— of alcohol, some factors affecting the,* 582
Motor response of the colon to alcohol, the, 638
National Safety Council, Committee on Tests for Intoxication, 1940 Report to Street and Highway Traffic Section,† 789
Nicotinic acid deficiency encephalopathy,* 196
Nutrition, alcohol and,* 783
Oxidations, the availability of ethyl alcohol for human brain, 268
Pain threshold, measurement of the effect on of acetylsalicylic acid, acetanilid, acetophenetidin, aminopyrine, ethyl alcohol, trichlorethylene, a barbiturate, quinine, ergotamine tartrate and caffeine: an analysis of their relation to the pain experience,* 780
Pancreatitis in acute and chronic alcoholism,* 782
Personality factors in alcoholic addiction, 21
Pellegra, vitamin deficiencies and liver cirrhosis in alcoholism, Part III, 739
—— following chronic alcoholism,* 786
——, the genesis of* 783
Peripheral neuropathy and cirrhosis of the liver, relation between multiple,* 589
Pharmacopoeial definition and description of whisky and their inadequacies, the, 444
Poisoning, in rabbits, some effects of chronic alcohol,* 590
—— deaths from. Incidence in Massachusetts,* 589
——, hospitalized patients with alcohol, 246
Polyneuritis, alcoholic, is intensive vitamin therapy indicated in?* 585
——, aetiology of,* 783
Prohibition, study of alcohol with special reference to,* 788
Psychological experiments on effects of alcohol, analysis of, 272
—— and medical aspects of excessive use of alcohol, the,* 198
Psychology of alcoholism, the social,* 391
Psychoses, alcoholic, prepsychotic personality in,* 198
—— —— personality factors in,* 391
—— —— therapeutic problems in the,* 392
Public health, alcoholism and, 605
Reflexes, sexual, effect of alcohol on in dogs,* 200
Research Council on Problems of Alcohol. Origin and purpose, 104
Proposed studies for the research program, 399
Report on the third annual meeting, 591
Committees, 108, 411, 603, 804
Respiration of the brain under the influence of hypnotics. Effect of acidosis,* 584
Respiratory failure, the principles governing the concentration of alcohol in the blood and the concentration causing,* 388
—— —— the influence of inhalation of oxygen and carbon dioxide and certain drugs on the concentration of alcohol in the blood causing,* 389
—— stimulant in acute alcoholic depression, the use of pentamethylenetetrazol (metrazol) as a,* 197
Rorschach performances of alcoholic patients,* 392
Review of the literature for 1939. Effects of alcohol on the individual, 110
Schizophrenia modified by alcohol,* 588
Sex offenses, the role of alcohol in the commission of,* 394
Social ambivalence, alcohol: a study of, 13
—— psychology of alcoholism, the,* 391
State control of trade in alcoholic beverages, 563
Strychnine, antagonism of, and the combination of alcohol-butylethylmalonylurea,* 584

*Indicates an abstract.
†Indicates a review.

Symposium on alcoholism of the Research Council on Problems of Alcohol. Report on the, 794
Introductory remarks to, 622
Announcement of, 409, 599
Tentative program of, 599
Syphilis in alcoholics, a note on the incidence of, 442
Taste thresholds, alcohol, and concentrations of solution preferred by rats,* 389
Tests for alcoholic intoxication,* 395
—— for alcoholic intoxication, chemical,* 395
——, chemical, for drunkenness, alcohol tolerance: its importance in relation to,* 200
——, chemical, in the proof of intoxication under workmen's compensation statutes, 190
——, chemical, for intoxication, under the motor vehicle laws, recent developments in, 182
—— for intoxication, committee on, 1940 Report, National Safety Council,† 789
Therapy of alcoholic addiction, conditioned reflex. III. An evaluation of present results in the light of previous experiences with this method, 501
—— of alcoholic addiction, conditioned reflex, specificity of conditioning against chronic alcoholism,* 786
—— in Korsakoff's psychosis, insulin shock,* 199
——, is intensive vitamin indicated in alcoholic polyneuritis?* 585
Therapeutic problems in the alcoholic psychoses,* 392
Thiamin, the antineuritic vitamin?* 585
Tolerance, alcohol, its importance in relation to chemical tests for drunkenness,* 200
Tolerant rabbits, alcohol, reactions of, to pentobarbital, evipal, ether, amidopyrine and metrazol,* 781
Traffic accidents, alcohol as a factor in, 413
Treatment, delirium tremens: a study of various methods of,* 786
—— of acute alcoholism with insulin,* 587
—— of alcoholism by large doses of strychnine,* 785
—— of alcoholism, the use of insulin in the,* 588
—— in alcoholic polyneuritis, the possibilities and limitations of vitamin,* 584
—— of chronic alcoholism and depression neuroses, amphetamine (benzedrine) sulphate in the,* 199
—— of uncomplicated acute alcoholism, the,* 786
Tumor, malignant, an experimental study of the effect of alcohol, chloroform and ether upon the growth and radiosensitivity of,* 784
Vision, the effect of alcohol on,* 588
An objective sign (Gans-Rodiet) in chronic alcoholism,* 784
Vitamin A deficiency in diseases of the liver: its detection by dark adaptation method,* 389
—— ——, mobilization of by alcohol,* 390
—— ——, mobilization of from its stores in the tissues by ethyl alcohol,* 197
—— B_1 in delirium tremens, the role of,* 392
—— —— in some manifestations of alcoholism different from alcoholism, role of alimentary imbalance in,* 585
—— C and vitamin P in man, deficiency of,* 784
—— deficiencies and liver cirrhosis.
Part I. Polyneuropathy, 517
Part II. Circulatory disturbances, 727
Part III. Pellagra, 739
Vitamins in the American diet, the influence of alcohol on the adequacy of the B, 74
Wernicke's Disease. Identity of lesions produced experimentally by B_1 avitaminosis in pigeons with hemorrhagic polioencephalitis occurring in chronic alcoholism in man,* 196

*Indicates an abstract.
†Indicates a review.

Quarterly Journal

OF STUDIES ON

ALCOHOL

Volume I

NEW HAVEN, CONNECTICUT
1940–1941
